

Environmental Protection Agency

§ 51.322

take full credit for the visibility improvement achieved through these strategies.

(ii) The requirement under § 51.308(e) related to Best Available Retrofit Technology for regional haze is deemed to be satisfied for pollutants addressed by the milestones and backstop trading program if, in establishing the emission reductions milestones under paragraph (f) of this section, it is shown that greater reasonable progress will be achieved for these Class I areas than would be achieved through the application of source-specific BART emission limitations under § 51.308(e)(1).

(iii) The Transport Region State may consider whether any strategies necessary to achieve the reasonable progress goals required by paragraph (g)(3) of this section are incompatible with the strategies implemented under paragraph (d) of this section to the extent the State adequately demonstrates that the incompatibility is related to the costs of the compliance, the time necessary for compliance, the energy and no air quality environmental impacts of compliance, or the remaining useful life of any existing source subject to such requirements.

Subpart Q—Reports

AUTHORITY: Secs. 110, 301(a), 313, 319, Clean Air Act (42 U.S.C. 7410, 7601(a), 7613, 7619).

SOURCE: 44 FR 27569, May 10, 1979, unless otherwise noted.

AIR QUALITY DATA REPORTING

§ 51.320 Annual air quality data report.

The requirements for reporting air quality data collected for purposes of the plan are located in subpart C of part 58 of this chapter.

SOURCE EMISSIONS AND STATE ACTION REPORTING

§ 51.321 Annual source emissions and State action report.

On an annual (calendar year) basis beginning with calendar year 1979, the State agency shall report to the Administrator (through the appropriate Regional Office) information as speci-

fied in §§ 51.323 through 51.326. Reports must be submitted by July 1 of each year for data collected and actions which took place during the period January 1 to December 31 of the previous year.

EFFECTIVE DATE NOTE: At 67 FR 39615, June 10, 2002, § 51.321 was revised, effective Aug. 9, 2002. For the convenience of the user, the revised text is set forth as follows:

§ 51.321 Annual source emissions and State action report.

The State agency shall report to the Administrator (through the appropriate Regional Office) information as specified in §§ 51.322 through 51.326.

§ 51.322 Sources subject to emissions reporting.

(a) Point sources subject to the annual emissions reporting requirements of § 51.321 are defined as follows:

(1) For particulate matter, PM₁₀, sulfur oxides, VOC and nitrogen oxides, any facility that actually emits a total of 181.4 metric tons (200 tons) per year or more of any one pollutant. For particulate matter emissions, the reporting requirement ends with the reporting of calendar year 1987 emissions. For PM₁₀ emissions, the reporting requirement begins with the reporting of calendar year 1988 emissions.

(2) For carbon monoxide, any facility that actually emits a total of 1814 metric tons (2000 tons) per year or more.

(3) For lead or lead compounds measured as elemental lead, any facility that actually emits a total of 4.5 metric tons (5 tons) per year or more.

(b) Annual emissions reporting requirements apply only to emissions of each pollutant from any individual emission point within the facility that emits:

(1) For particulate matter, PM₁₀, sulfur oxides, VOC and nitrogen oxides. 22.7 metric tons (25 tons) per year or more. For particulate matter, the reporting requirement ends with the reporting of calendar year 1987 emissions. For PM₁₀, the reporting requirement begins with the reporting of calendar year 1988 emissions.

(2) For carbon monoxide, 227 metric tons (250 tons) per year or more.

§ 51.323

(3) For lead or lead compounds measured as elemental lead, 4.5 metric tons (5 tons) per year or more.

[44 FR 27569, May 10, 1979, as amended at 44 FR 65070, Nov. 9, 1979; 52 FR 24714, July 1, 1987; 64 FR 7462, Feb. 12, 1999]

EFFECTIVE DATE NOTE: At 67 FR 39615, June 10, 2002, § 51.322 was revised, effective Aug. 9, 2002. For the convenience of the user, the revised text is set forth as follows:

§ 51.322 Sources subject to emissions reporting.

The requirements for reporting emissions data under the plan are in subpart A of this part 51.

§ 51.323 Reportable emissions data and information.

(a) The State shall submit in the annual report the following emissions data and information:

(1) Emissions of particulate matter (PM₁₀), sulfur oxides, carbon monoxide, nitrogen oxides, VOC and lead or lead compounds measured as elemental lead as specified by the AIRS Facility Subsystem User's Guide AF2 "AFS Data Coding" (EPA-454/B-94-004) point source coding form,

(2) [Reserved]

(3) Emissions of PM 2.5 as will be specified in a future guideline.

(b) Such emissions data and information specified in paragraph (a) of this section must be submitted to the AIRS/AFS database via either online data entry or batch update system.

(c) The emissions data and information specified by paragraph (a) of this section must be submitted in the annual report for any point source for which one or more of the following conditions occurs:

(1) A source achieves compliance at any time within the reporting period with any regulation of an applicable plan,

(2) A new or modified source receives approval to construct during the reporting period or begins operating during the reporting period,

(3) A source ceases operations during the reporting period, or

(4) A source's emissions have changed more than 5% from the most recently submitted emissions data.

(d) If, as determined by the State and the Regional Administrator, the emissions from any point source have not

40 CFR Ch. I (7-1-02 Edition)

changed more than 5% from the most recently submitted emissions data, the State shall update the year of record of the previously reported data and information specified by paragraph (a) of this section.

[44 FR 27569, May 10, 1979, as amended at 52 FR 24714, July 1, 1987; 64 FR 7463, Feb. 12, 1999]

EFFECTIVE DATE NOTE: At 67 FR 39615, June 10, 2002, § 51.322 was revised, effective Aug. 9, 2002. For the convenience of the user, the revised text is set forth as follows:

§ 51.323 Reportable emissions data and information.

The requirements for reportable emissions data and information under the plan are in subpart A of this part 51.

§ 51.324 Progress in plan enforcement.

(a) For each point source, the State shall report any achievement made during the reporting period of any increment of progress of compliance schedules required by:

(1) The applicable plan, or

(2) Any enforcement order or other State action required to be submitted pursuant to § 51.327.

(b) For each point source, the State shall report any enforcement action taken during the reporting period and not submitted under § 51.327 which results in civil or criminal penalties.

§ 51.326 Reportable revisions.

The State shall identify and describe all substantive plan revisions during the reporting period of the applicable plan other than revisions to rules and regulations or compliance schedules submitted in accordance with § 51.6(d). Substantive revisions shall include but are not limited to changes in stack-test procedures for determining compliance with applicable regulations, modifications in the projected total manpower needs to carry out the approved plan, and all changes in responsibilities given to local agencies to carry out various portions of the plan.

§ 51.327 Enforcement orders and other State actions.

(a) Any State enforcement order, including any State court order, must be submitted to the Administrator within 60 days of its issuance or adoption by the State.
